### **National Park Tourism in Alaska Contributes \$1.79 Billion to State Economy *New report shows visitor spending supports 16,450 jobs in Alaska***

**Anchorage, AK** – A new National Park Service (NPS) report shows that 2,023,881 visitors to national parks in Alaska spent \$1,160,600,000 in the state in 2022. That spending resulted in 16,450 jobs and had a cumulative benefit to the state economy of \$1,785,800,000.

“Since 1916, the National Park Service has been entrusted with the care of our national parks. With the help of volunteers and partners, we safeguard these special places and share their stories with more than 300 million visitors every year. The impact of tourism to national parks is undeniable: bringing jobs and revenue to communities in every state in the country and making national parks an essential driver to the national economy,” said **National Park Service Director Chuck Sams**.

“Visitors in 2022 to national parks in Alaska spent \$1,160,600,000 and supported 16,450 jobs in local communities,” said **Regional Director Sarah Creachbaum**. The two Alaska parks with the largest amount of visitor spending are: Denali and Glacier Bay national parks. Denali accounted for \$475 million in spending and supported 6,640 jobs. Visitors to Glacier Bay accounted for \$225 million in spending and supported 2,820 jobs. “Every park in the state offers unique experiences, from learning about history up-close to diverse outdoor recreational opportunities. There’s something for everyone to see and enjoy,” Creachbaum said.

The national park areas in Alaska are:

[Aleutian Islands World War II National Historic Area](#)  
[Aniakchak National Monument and Preserve](#)  
[Bering Land Bridge National Preserve](#)  
[Cape Krusenstern National Monument](#)  
[Denali National Park and Preserve](#)

[Gates of the Arctic National Park and Preserve](#)  
[Glacier Bay National Park and Preserve](#)  
[Inupiat Heritage Center](#)  
[Katmai National Park and Preserve](#)  
[Kenai Fjords National Park](#)  
[Klondike Gold Rush National Historical Park](#)  
[Kobuk Valley National Park](#)  
[Lake Clark National Park and Preserve](#)  
[Noatak National Preserve](#)  
[Sitka National Historical Park](#)  
[Wrangell-St. Elias National Park and Preserve](#)  
[Yukon-Charley Rivers National Preserve](#)

The peer-reviewed visitor spending analysis was conducted by economists at the National Park Service. The report shows \$23.9 billion of direct spending by nearly 312 million park visitors in communities within 60 miles of a national park. This spending supported 378,400 jobs nationally; 314,600 of those jobs are found in these gateway communities. The cumulative benefit to the U.S. economy was \$50.3 billion.

As for the economics of visitor spending, the lodging sector had the highest direct effects, with \$9 billion in economic output nationally. The restaurants sector was had the second greatest effects, with \$4.6 billion in economic output nationally.

Report authors also produced an interactive tool that enables users to explore visitor spending, jobs, labor income, value added, and output effects by sector for national, state, and local economies. Users can also view year-by-year trend data. The interactive tool and report are available at the NPS Social Science Program webpage: [Visitor Spending Effects - Economic Contributions of National Park Visitor Spending - Social Science \(U.S. National Park Service\) \(nps.gov\)](#)
